

Easily capture colourised data

ZEB Vision is the perfect addition to the **ZEB Horizon**. Better than ever colourisation and immersive point cloud walk-throughs.

Camera specification

Resolution	4K Panoramic
Capture rate	2 FPS
Colour	RGB

Software functionality

Walk-through bubble view

Point cloud visualisation

3D measurements on imagery

Integration with Draw 4.0

Export all data to third party software e.g:

Orbit

TerraSolid

Hardware functionality

Retrofit to ZEB Horizon

Screw on mounting plate

- ✓ Automatic data processing.
- ✓ Single-operation automated workflows including scan alignment and georeferencing.
- ✓ Organise point clouds into projects for simplified data management.
- ✓ Add on Draw software for taking measurements from your data.
