^{^^}Preventive maintenance includes annual adjustments and calibration for SX10 or SX12.

Benefits

- ▶ Our Trimble Protected Premium coverage entitles you to a new or like-new piece of equipment with comparable features if yours can't be fixed, or if it simply makes more sense to replace it.
- ▶ Trimble Access software comes with your Trimble Protected Premium protection plan for receivers and controllers. Software protection plans keep your data workflow set running at the highest performance level possible.
- ▶ It's backed by Trimble Inc. which has earned the reputation of taking care of their customers.
- ▶ Having a current Trimble Protected Premium protection plan helps you receive the latest capabilities when using your receiver or controller with your Trimble Access software.
- ▶ Trimble Protected Premium keeps you running, minimizes unnecessary downtime and improves your overall efficiency.

Trimble Protected Premium makes good business sense and is an excellent way to protect your cash flow and minimize the risk of doing business!

Trimble Protected Premium is available on specific models of data collectors, total stations & GNSS receivers.

See Trimble Protected Premium Plan datasheet for details

Premium Plan for Geospatial

Addendum to Datasheet

Included with Your FIVE years of Accidental Damage Coverage

Coverage Details

- ▶ Trimble Protected Premium is the only protection plan designed specifically for buyers of new Trimble Survey hardware; it enhances and sustains your entire ownership experience with worry-free coverage for five years after date of purchase.
- ▶ The Premium protection plan has all of the benefits of a Plus plan, including the added value of **accidental damage coverage**, starting on the date of purchase and covering your equipment for five years.
- ▶ Premium plan coverage is available for eligible Trimble Geospatial Survey equipment.
- ▶ This five-year protection plan costs less than buying new equipment if it needs to be replaced; locking in tomorrow's repair and replacement costs at today's prices.
- ▶ Your protection plan ensures that you pay no deductible and no out of pocket fees for parts and labor on covered repairs or replacement. You keep your cash in your business instead of fixing your equipment.

Important Information

For more details on Trimble Protected Premium Plans for Geospatial, see the Plan datasheet.

- ▶ If the instrument cannot be repaired it will be replaced one time. After one replacement, the hardware protection plan ends, and the user can transfer the Trimble Access software to a new instrument. The software portion of the plan continues to the expiration of the protection plan.
- ▶ Replaced instruments come with a factory warranty; a Trimble Protected Premium plan can be repurchased to continue coverage.
- ▶ Abuse is not covered by the plan.
- ▶ Instruments with cosmetic damage like dings, dents, scratches, etc. that function normally not covered.
- ▶ Trimble Protected Premium does not cover lost or stolen instruments.
- ▶ Trimble Protected Premium covers hardware only on eligible total stations.

Trimble Protected Premium keeps you running, minimizes unnecessary downtime and improves your overall efficiency.
